# Today's Agenda

## Roundtable discussion on **Implementing Measures of Effectiveness**

1. Considerations for getting started and where to begin
2. Planning for effectiveness
3. Collecting data
4. Using data to drive effectiveness

# Where to begin...

## **Foundation of an effective training program**

- What does the FDA say is needed?
- How has the industry interpreted these requirements?
- Why are they important?

# Planning for Effectiveness

## Connecting the dots with a plan

- Is your foundation solid?
- Where is effectiveness needed most?
- Are there potential barriers?
- What should you measure?
- How should the data you collect be used?
- How should you document?

# Collecting Data

## **Monitoring your program with data**

- Data sources
- Interpreting data
- Evaluation methods
- Tools

# Using Data to Drive Effectiveness

## **Collecting data isn't enough.....use your data!**

- Reporting
- Training lifecycle
- Program changes
- Business support
- Highlight improvements
