Talent Remains a Key Driver in this Changing World

Developing emerging leaders is a #2 concern of CEOs*

Ineffective leaders are the #1 reason people leave a company within 1 year

*DDI Study, 2022

What are the Best Ways to Engage with Emerging Leaders?

4 Tips to Revolutionize your Coaching and Talent Development Solution

Personalize the Experience

Keep it Social

Utilize Technology

Leverage Data

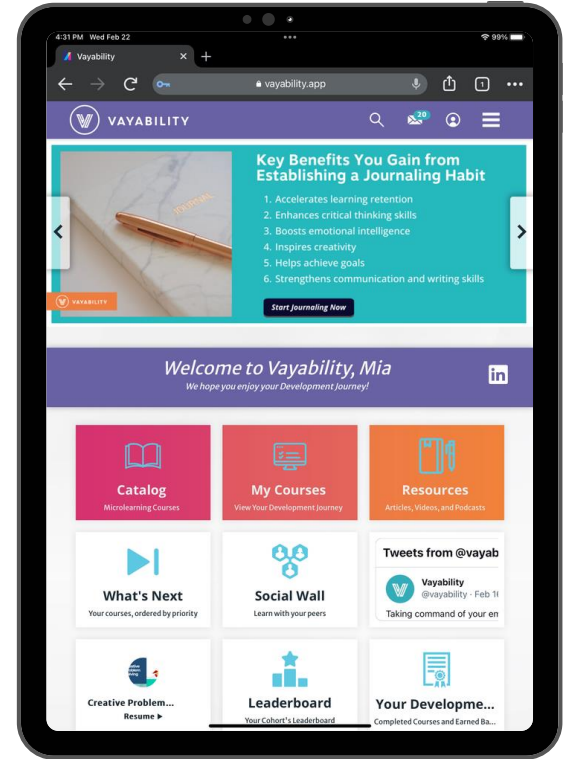

Tangible Talent Development

MEASURABLE GROWTH, IMMEASURABLE RESULTS

Backed by over 20 years of successful coaching and development within Fortune 500 businesses — Vayability combines innovations in neural learning with time-tested strategies for success.

Vayability is designed to increase engagement, boost retention, ignite productivity, and accelerate careers. Participant growth is measurable, scalable, and focused on the most impactful leadership skills.

What is Vayability?

Vayability is a digital learning platform in which Learners will complete their Development Journey

In Vayability, learners will:

- Gain access to the **resources** necessary to complete their monthly challenges
- Schedule **coaching calls** and **manager check-ins**
- Participate in **learning courses** to amplify their skills
- Complete **evaluations** and **surveys** related to their progress
- Download **tailored content** that helps with their development

Booth #300

How It Works

What makes Vayability™ unique?

TECHNOLOGY

Connect with your coach and team no matter where you are through Vayability's cloud-based platform.

SCIENCE/RESULTS

Based on the latest in neural learning research and habit-building.

COACHING

Individual 1:1 coaching sessions provide feedback and guidance throughout the journey.

PEER SUPPORT

Build rapport with your manager and peers through the built-in virtual wall and messaging.

Personalize the Experience

Get to know their passions, identify their work values, and expand their competencies.
Give stretch assignments specific to their development.

- A personalized experience leads to **greater and longer sustained motivation**.
- People are more motivated and engaged when they are working **toward self-selected goals**, when the experience is aligned with their everyday work, and when they are engaged in value-aligned experiences.
- Leaders see **greater cognitive and behavioral changes** when developmental programs are adapted to their needs and current skill level.

Keep it Social

Create healthy, friendly competition, perhaps utilizing teams. Gamify the experience and incorporate things like rewards and levels, and a place where these live so team members can constantly work at leveling up/earning a higher reward.

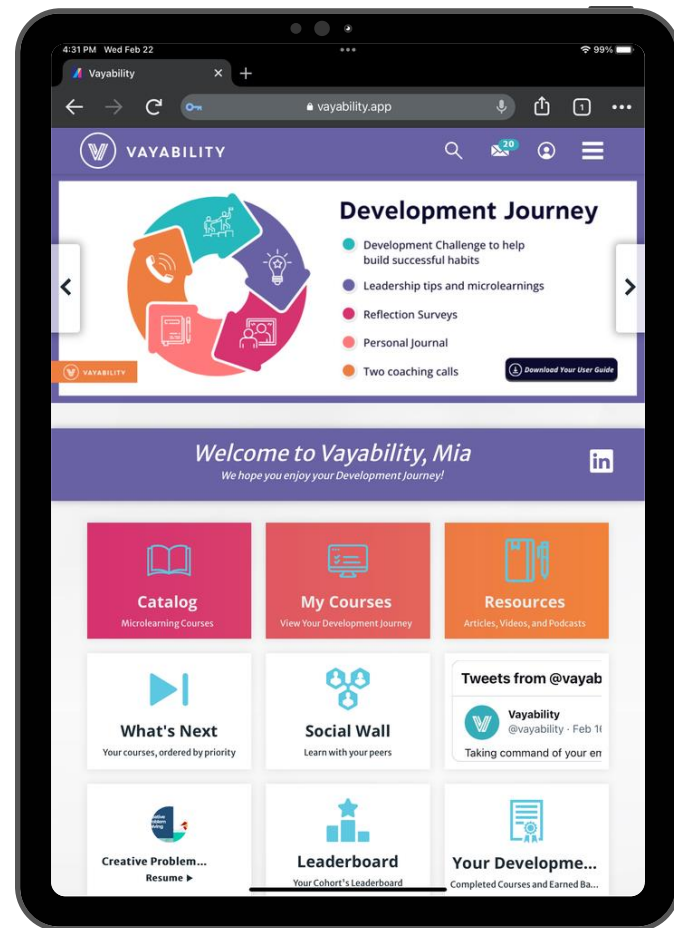

- Adult learning **happens through others** via shared information and resources, role-modeling, etc.
- **Connection and relevancy are basic needs** that, when fulfilled, lead to greater motivation, engagement and commitment.
- Keeping the experience social also helps **sharpen secondary human skills** (e.g., communication, collaboration, inclusion, relationship building, and empathy).

Utilize Technology

Create a curated list of learning content—this can be stored digitally for easy access—things like blogs, online training, etc. Micro videos and virtual coaching programs are incredibly effective.

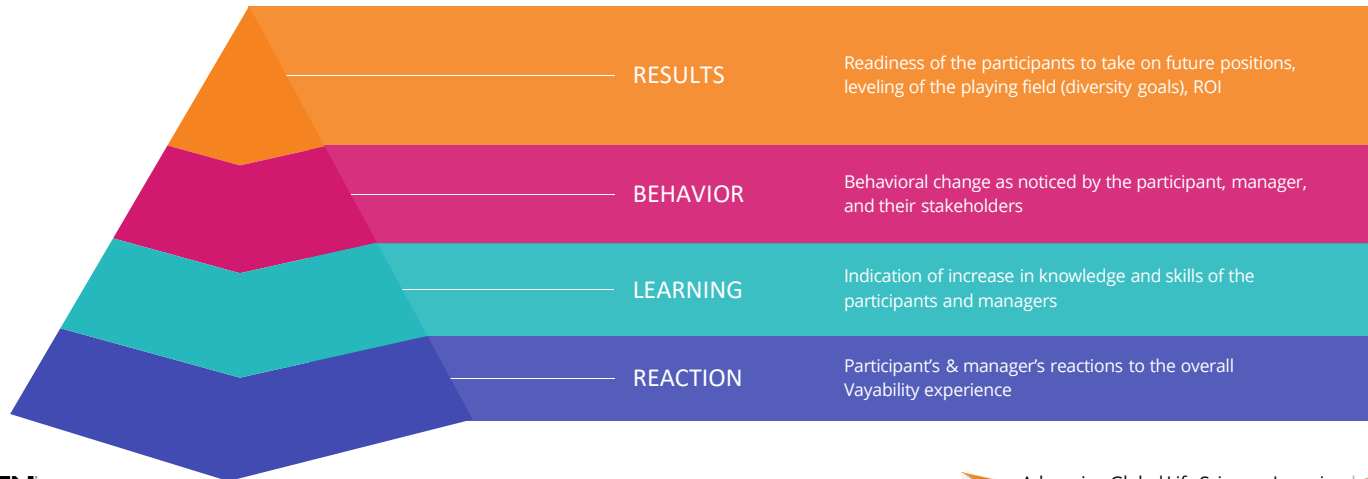

- Technology offers **real-time feedback** in the form of assessments, on-demand coaching, and even AI enabled LD tools.
- Technology is also **scalable and allows for remote learning**, making it more affordable and increasing the reach to otherwise excluded populations (e.g., next-gen leaders).
- When leveraged properly, **Gamification** is an effective motivational tool.
- Technology enables the creation of a **central location** for resources for leaders.

Leverage Data

Measurement

- Engagement metrics track progress and promote accountability
- Success metrics measured against the Kirkpatrick model
- Ending development index (pulse survey)
- Stakeholder, manager, and self-reflection survey data
- Vaya NPS and coaching effectiveness ratings

All Programs:

100%

Participants reported acceleration in their development

90%

Participants agree that Vayability increased their productivity

90%

Participants say that Vayability impacted their business's success

Benefits of Personalized Habit-Building
